RASSON

— BILLIARDS —

I have always been amazed by the design of the Victory table. Not only this table is one of the most beautiful on the market, it also plays absolutely fantastic! It is no coincidence I have been using Rasson tables in all my viral videos as quality and design are vital to my success!

VICTORY II

1. Slate

The 9ft table is comprised of precision cut 30mm (1.18") thick 3pc premium RASSON slate, grinded and then sanded flat within a tolerance of less than 0.1mm. 30 instead of regular 18 rail holes of other tables on the market on each slate tighten the rail and slate better, provide a fine resistance to collision, seismic and abscission; and offer a more average and accurate ball response.

6. Cabinet Leveling System (Patent pending)

Our patent pending primary leveling system allows the steel frame to be leveled independently from the pedestal leg design, allowing easy adjustments with only single hand even after the table has been installed.

7 Features of Victory III

2. Rail

Our unique processing technology compresses phenolic resin into precious hardwood veneers, resulting in a luxurious look with an ultra durable finish that is resistant to warping, scratches, moisture, and heat.

4. Steel Support Beam

Structural steel provides superior stability than traditional wood frames, offering a precise foundation for the slate while maintaining consistency in virtually any climate.

5. Slate Leveling Adjuster (Patent pending)

Our patent pending LevelBox™ system allows for micro adjustments to the slate across 22 key locations, allowing for precise installation without the need for shims. The system features easy access with the ability to make leveling readjustments throughout the lifespan of your table.

7. Pockets (Patent pending)

Our redesigned pocket buckets are made from TPR (Thermo-Plastic-Rubber) in the ideal density necessary to eliminate scuffing (and resulting skidding), reduce ball rejection (bounce out) and dampen impact noise. Specially designed with our patent pending T-shape slot device, the pockets offer a precision fit with fast assembly. Each pocket can hold 10 balls and pockets are available in a variety of colors to match the cloth.

3. Cushion

The Artemis brand is synonymous with quality billiard rubber. Durable yet precise, they offer the most consistent response and longevity of any billiard cushion.
