STEEL Clash Alumen

The new engineered rails have an aluminum base for maximum precision, long life durability and most suited for heavy-duty use in any environment, not sensitive to climate and or temperature.

All metal parts are finished in Space Black with an astonishing, and exclusive to the Clash Steel Pro Alumen, look and feel.

We have selected Artemis rubber no. 66 cushions out of the available premium brands in the market for its best qualification for our table. It consists of high-quality natural rubber.

The Clash Steel Pro Alumen uses high quality Clash Pro Pockets with specially designed PVC pocket liners which meets the highest match standards to ensure maximum comfort and playability. The slanted form of the pocket liner ensures that a potted ball always ends up inside the pocket instead of bouncing back out. Each pocket can contain a complete set of balls.

The rails are finished with high grade, extremely durable anti-static vinyl. This gives great look and feel with maximum comfort for player-hands with a comfortable surface temperature. Special Vinyl designs and colors can be supplied at an additional charge.

The Clash Steel Pro Alumen is our newest table which has some major innovations. First of all, fully new engineered aluminum rails with a soft touch, vinyl finish. Secondly, a redesigned solid steel frame. The timeless design is only slightly altered with new space black castings that gives the Clash Steel Pro Alumen a luxury high-end finish.

STEEL Clash

The rails are made up of several pieces of high-quality oak wood that have been carefully selected and assembled. This attention to detail ensures that the rails are strong and durable, withstanding the pressure of countless games. The stability of the rails ensures that the balls roll smoothly and predictably, enhancing the overall playing experience.

After careful consideration of the top premium brands on the market, we chose Artemis rubber no. 66 billiard cushions for their superior quality and excellent fit for our table. Made from high-quality natural rubber, they pair perfectly with our high-quality oak wood, ensuring an exceptional playing experience.

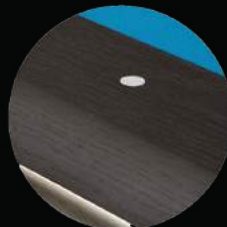

Clash Pro Pockets are used in the new Clash Steel Pro. These pockets meet the highest match standards and use advanced top – down mounting to ensure the highest quality and playing comfort and avoids damage to the balls. The pockets fit a complete set of balls!

The slanted finishing of the pocket makes sure that when a ball is potted it actually ends up in the pocket instead of bouncing out.

Our cloth strip is made of synthetic material and due to its sturdy embossing it ensures the perfect fit to hold the cloth in place.

Standard equipped with HPL (High Pressure Laminate) black finish

The Clash Steel Pro after his introduction became one of the best commercial tables on the European market and has been the choice of many pool clubs and players for domestic use. Its timeless design and its solid construction stands for long term and durable quality, suitable for intensive commercial use and for pro players that value high quality play.

STEEL Clash

The Clash Steel isn't just about functionality – it's also a stunning piece of furniture that adds elegance and sophistication to any space. From its smooth and polished playing surface to its eye-catching design details, the Clash Steel is a true work of art that will impress your friends and guests alike.

What truly sets the Clash Steel apart is its steel frame, which provides a rock-solid foundation for hours of intense gameplay. Unlike other pool tables that may wobble or shift during use, the Clash Steel remains stable and secure, allowing you to focus on your shots and strategies without any distractions.

Another feature that makes the Clash Steel stand out is its built-in ball storage, which keeps your balls organized and easily accessible. No more searching for lost balls or cluttering up your game room with messy racks – with the Clash Steel, everything you need is right at your fingertips.

No matter which color you choose, both Atlantis and Black options will elevate your game room to the next level. Plus, with the durable steel frame and built-in ball storage, the Clash Steel pool table will provide you with years of enjoyable gameplay.

Introducing the Clash Steel, the perfect entry-level pool table for both pool halls and home use. Measuring 9-foot in length, the Clash Steel is perfect for pool halls, game rooms, or home use. With its sleek and modern design, this table is available in two stunning colors – Atlantis and Black – to suit any décor or preference.

Made In Europe

We prioritize quality in our billiard tables by sourcing largely from European manufacturers who share our commitment to excellence. Regular visits to suppliers are conducted to ensure adherence to the highest quality standards. This dedication to using only the finest resources results in a truly exceptional final product.

Brazilian Premium Slate

We deliver Brazilian premium quality slate with a 30mm thick, especially finished for the best playing surface. Every single slate goes through our quality control in our factory to ensure our high standards are met. The Brazilian slate is known for its exceptional properties maintaining its geometrical shape and is stronger than Italian slate and Chinese slate.

Johan Ruysink

-Professional Pool coach, 8 times winner Mosconi Cup-

'This table surprised me for its quality, its consistence in playing and the use of superior materials. The players I work with and have played on this table have all found it to be one of the best tables around at the moment. The rails, pockets and design are exactly what it should be. This table is perfect to improve your game and become a champion!'

Karl Boyes

- professional pool player, billiard streamer -

'Having played pool for 20 odd years all over the world, I have played on my fair share of pool tables, when I decided to set a YouTube channel up I was purely looking for a table to look good in my videos ! The playability didn't concern me as I am no longer a touring pro, it was all about the look, however having the table over a year now I have never had one single bad bounce, and the table just feels so meaty, it's really is a beast of a table and I know I can 100% trust it !'

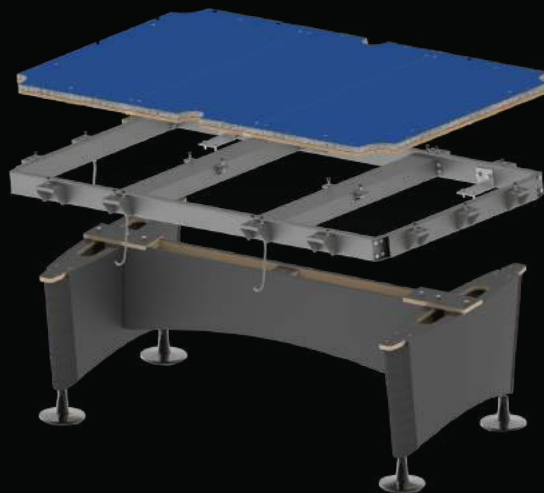

Mark Bliet

- Billiard Fitter -

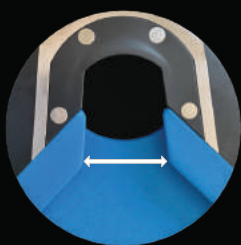

'The table is easy to install and the feedback from the customers is very positive. Furthermore, the table is very well finished with a durable, steel frame and has a very solid structure which guarantees the stability of the table. Definitely a game changer!'

Clash Unibody

We have taken the billiard table to the next level with our revolutionary new Unibody frame design. This innovative design features a solid and rigid steel frame that has been engineered to provide the ultimate in stability and strength. The Unibody design offers several advantages over traditional frame designs, including quicker and easier installation, reduced noise during play, and more precise table level adjustment options. With 22 levelers, players can ensure that the slate is perfectly leveled and the balls roll smoothly and accurately.

Customize your own table

We offer special pocket sizes from 8 tables upon request.

More than 100 different options of vinyl available. Pictured: Ebony finishing

Personalize your table. It is possible to customize the corners of the pockets with your name or business.

Choose a pool table on tournament level

The perfect pool table for tournaments? Our pool tables are extremely popular for use in professional and amateur tournaments. The Artemis rubber provides perfect ball rebounds. Thanks to the steel frame, the table is always positioned sturdily, which is very important when leaning weight on the pool table. In short, with our innovative design, you don't have to worry about the performance of the pool table. So, are you a true pool enthusiast? Then Clash Steel and you will be the perfect match.
